Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) Responsive to communication(s) filed on 27 August 2004.
- 2a) This action is FINAL. 2b) This action is non-final.

DETAILED ACTION

Election/Restrictions

1. Applicant's election of Figure 13, claims 13-18 and 20-26, in the reply filed on August 27, 2004 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).
2. Claim 1-12 and 19 are withdrawn from further consideration pursuant to 37 CFR 1.142(b) as being drawn to a nonelected invention/species, there being no allowable generic or linking claim. Election was made **without** traverse in the reply filed on August 27, 2004.

Specification

3. The abstract of the disclosure is objected to because it does correspond to the claim language presented for examination. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
5. Claims 13-18 and 20-26 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 13, lines 7-17, are not clear as no support in the descriptive portion of the specification, e.g. pages 37-41, contain such language to support such claim language. Similar issues arise from the other claims 14-18 and 20-26.

Applicant is requested to particularly direct where such support for the specific claim language is found in the descriptive portion of the specification in juxtaposition to the drawings.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 13-18 and 20-26, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Sugibayashi, US 5,305,265.

Sugibayashi discloses a semiconductor device comprising a plurality of cell arrays, e.g. 1, a selection circuit, e.g. 6, an array selection circuit, e.g. 5, fuses, e.g. F1-F11, and outputting signals, e.g. Y1. Sugibayashi does not disclose all Applicant's intended use language, e.g. for generating . . ." and "being adapted to define . . ." as recited. However, such generating and adaptation for circuits has been common knowledge in the semiconductor art. To have provided such for Sugibayashi would have been obvious to one of ordinary skill in the art.

8. Further pertinent references of interest are noted on the attached PTO-892.

Conclusion

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 703-308-7808. The examiner can normally be reached on Tuesday thru Friday, 7:30 a.m until 6 p.m..

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mr. Robert P. Olszewski can be reached on (703) 308-5183. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
